The Data Manifest

Better health data for a more efficient health system

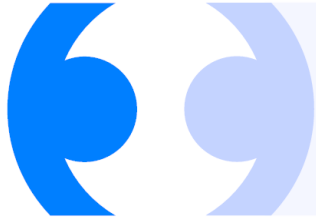

Corina Wirth, PhD

Managing Director

The Swiss Society for Public Health

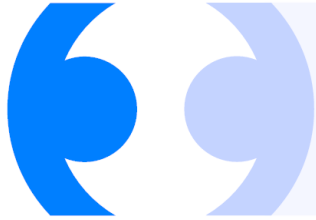

The Swiss Society for Public Health

Who are we?

The Swiss Society for Public Health

- Independent national organisation
- Committed to providing the best possible conditions for the health of the population
- Cross-topic and interdisciplinary nationwide network of public health experts
- Support for the decision makers

Why a manifesto?

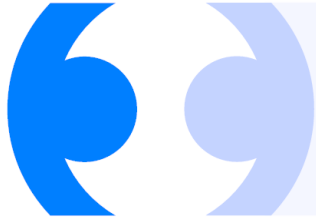

Is the care of patients with multiple diseases sufficiently coordinated?

How many children are mentally ill?

How many health professionals are vaccinated against seasonal flu?

We do not know. 

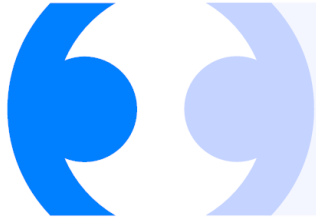

- Data gaps
- Data not always accessible
- Often poorly coordinated

What do we demand?

Improving...

- Linkability
- Comparability
- Availability
- Completeness

What do we demand?

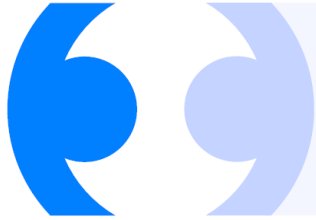

Manifesto

«**Better health data for a more efficient health system**»

published at the Swiss Public Health
Conference 2013

www.gesundheitsmanifest.ch

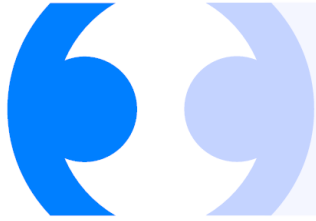

www.manifestesante.ch

And now?

- Manifesto child and youth health (2019)
- Motion 19.4069 «Schweizer Kohortenstudie zur Untersuchung der Gesundheit von Kindern und Jugendlichen»
- Obsan report: Data gap
- Pilot phase to a Swiss Health Study

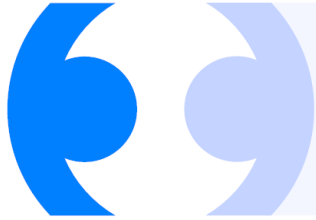

And now?

- Ongoing discussion with FOPH
- Ad-hoc Working Group
- New Expert Group “Public Health Surveillance & Monitoring”

**We need to convince
authorities and politicians!!!**

Thank you for your attention!
